December 19, 2018

To the Board of Directors and Citizens of the Tehachapi-Cummings County Water District:

State law requires that all local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformance with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that law, we hereby issue the comprehensive annual financial report of the Tehachapi-Cummings County Water District for the fiscal year ended June 30, 2018.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefit, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Van Lant & Fankhanel, LLP, Certified Public Accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2018 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified ("clean") opinion that the District's financial statements for the fiscal year ended June 30, 2018 are fairly presented in conformity with GAAP. The independent auditor's report is located at the front of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditor.

## **Profile of the Tehachapi-Cummings County Water District**

The Tehachapi-Cummings County Water District was organized on March 10, 1965 under provisions of the County Water District Law (Sections 30000 et seq. of the Water Code of the State of California). The District is located in the Tehachapi Mountains east of the Southern San Joaquin Valley and encompasses approximately 266,000 acres. The District provides an imported water supply, groundwater resource management and flood protection. The District imports State Water Project water from the California Aqueduct and sells this imported water to agricultural and municipal/industrial customers.

The local groundwater supply is located in three basins, which are the Brite, Cummings and Tehachapi Basins. The District is the court-appointed Watermaster for these three adjudicated basins. As Watermaster, the District protects the groundwater resources within the basins by administering the judgments and providing annual reports to the Kern County Superior Court.

The District is governed by a five-person Board of Directors elected “from divisions” to four-year staggered terms. “From divisions” means election of directors who are residents of the division from which they are elected by the voters of the entire District. The five divisions are roughly equal in acreage. The Directors are responsible for policies and decisions which govern the operations of the District.

The District has operated under the council-manager form of government since its inception. Policy making and legislative authority are vested in the Board of Directors. The Board is responsible for setting policy by ordinance, resolution or minute order, adopting the budget and hiring the general manager, legal counsel and auditor. The general manager is responsible for carrying out the policies of the Board, for overseeing the day-to-day operations of the District, and the hiring of all District employees. The District serves a population of approximately 36,000.

The District's mission is to ensure the most reliable, cost effective and highest quality water supply within the District through the importation of State Project Water, management of groundwater basins, as well as provide flood protection within specified areas of the District and within the jurisdiction of the District as defined in the State Water Code and pertinent statutes of the State of California.

The annual budget serves as the foundation for the District’s financial planning and control. All departments of the District are required to submit budget requests to the general manager on or before April 1 each year. The general manager and the business manager, together with an ad-hoc Budget Committee, prepare the draft budget. The Board conducts at least two public hearings on the proposed budget and adopts a preliminary budget no later than June 30 and a final budget no later than September 1. The budget is prepared by fund (e.g. general) and department (e.g. administration). Department heads may transfer resources within a department as they see fit. Transfers between funds must be approved by resolution of the Board.

#### **Information useful in assessing the District’s Economic Condition**

The financial position information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

**Local economy.** Since the District receives no sales or fuel taxes that are sensitive to the business cycle, nonoperating revenues (primarily property taxes) tend to be stable. Property taxes from income-producing properties can be impacted by the business cycle, but generally, property taxes are more stable than revenues from other taxes. The District’s tax base will increase by approximately 3% in fiscal 2019. Fiscal 2018 growth rate was approximately 3%.

The District’s second largest source of revenue, imported water sales, decreased slightly (-4%) in fiscal year 2018 due to changes in customer class demand. M&I sales increased by 23% and AG sales decreased by -11%. Ag water deliveries in 2017 (these records are kept by calendar year) were 5,419 acre-feet compared with 5,679 AF in 2016, and remained above the ten-year average of 3,753 AF. M&I water deliveries were 2,052 AF in calendar year 2017 and 1,341 AF in calendar year 2016, rising above the ten-year average of 1,873 AF.

**State Water Project allocation.** The SWP allocation for 2018 is 35%, which is below average. The District plans to extract 3,150 AF of banked water supplies from Kern County Water Agency in 2018-19 to meet demand and recharge goals. The District Plans to enter 2018 with approximately 138 AF of SWP carryover water.

**Energy costs.** The District’s water rates are driven by the price it pays for natural gas to power its pump plants. Natural gas prices have remained soft. Going forward, the District plans to lock in long-term natural gas supplies at prices that will stabilize its water rates at an affordable level for years to come. The District has contracted for the majority of its natural gas needs through 2020. There is a limit to how much natural gas can be purchased in advance because of the variability of the State water supply.

**Air quality regulations.** The Valley Air Board limited the District’s engines at Pump Plant 1 to 4,000 operating hours per year, restricting the amount of water that could be pumped. To increase pumping capacity, the District successfully replaced all four engines and its system-wide controls in fiscal 2016 by entering into an installment purchase agreement with Umpqua Bank, dated April 1, 2015. The agreement provided for up to \$7,000,000. The project was completed in

fiscal year 2017 for approximately \$5,781,000. Debt service payments began in December of 2015 and will end in December of 2023.

**Workforce.** The District’s workforce consists of 19 full-time positions and three temporary summer helpers.

**Employee pension liability.** District employees are members of the California Public Employees’ Retirement System (CalPERS).

**Reserves.** Concurrently with the 2018-19 budget, the Board adopted a reserves policy, which sets forth reserve targets and an approach for accumulating reserves over time. The policy requires management to calculate full reserve targets and interim reserve targets and annually report to the Board the progress toward achieving those targets. As of June 30, 2018, all reserve targets are filled, with the exception of the three flood control improvement districts. Management will review the need for additional reserve contributions during budget development for fiscal year 2019-20. The following table shows the amounts as of June 30, 2018:

Reserves	Reserve Formula	Full Reserve Target	Interim Reserve Target	Actual Reserve 6/30/18	Target Met?
<b>Designated Reserves:</b>					
Working capital	90 days of operating expenses	\$ 1,898,979	\$ 1,898,979	\$ 4,753,017	Full - Yes
Water banking reserve	Cost to replace or extract banked water	174,779	174,779	179,897	Full - Yes
Tax revenue liability reserve	50% of Kern County's liability estimate	251,779	125,890	597,720	Full - Yes
Emergency reserve	5% of general fund operating expenses	379,796	189,898	380,871	Full - Yes
Major repairs/overhauls	5% of capital assets' book value	1,529,047	764,523	1,533,307	Full - Yes
Rate stabilization reserve	1 to 5% of general fund operating expenses	379,796	189,898	544,220	Full - Yes
<b>Restricted Reserves:</b>					
State Payment operating reserve	50% of current year expenditure budget	1,280,663	1,280,663	1,400,339	Full - Yes
State Payment tax revenue liability reserve	50% of Kern County's liability estimate	90,400	90,400	90,491	Full - Yes
Prop 84 grant reserve	per grant	20,000	20,000	41,330	Full - Yes
2 flood control replacement	50% of construction cost indexed for inflation	235,622	235,622	97,514	No
3 flood control replacement	50% of construction cost indexed for inflation	523,589	523,589	166,193	No
1 flood control replacement	50% of construction cost indexed for inflation	1,501,161	1,501,161	849,924	No

### Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Tehachapi-Cummings County Water District for its comprehensive annual financial report for the fiscal year ended June 30, 2017, the ninth consecutive year of award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently

organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Preparation of this report was accomplished by the combined efforts of District staff. I appreciate the dedicated efforts and professionalism that our staff members bring to the District. I would also like to thank the members of the Board of Directors for their continued support in the planning and implementation of the Tehachapi-Cummings County Water District's fiscal policies.

Sincerely,

LaMinda Madenwald  
Business Manager

## INDEPENDENT AUDITOR'S REPORT

Board of Directors  
Tehachapi-Cummings County Water District  
Tehachapi, California

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the Tehachapi-Cummings County Water District (the "District"), as of and for the year ended June 30, 2018, and the related notes to the financial statements which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the State Controller's Minimum Audit Requirements for Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## ***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Tehachapi-Cummings County Water District, as of June 30, 2018, and the changes in financial position, and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America, as well as accounting systems prescribed by the State Controller's Office and State regulations governing special districts.

## ***Change in Accounting Principle***

As described in Note 7 to the financial statements, in fiscal year ended June 30, 2018, the District adopted new accounting guidance, *GASBS No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our opinion is not modified with respect to this matter.

## ***Other Matters***

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 - 10, and other Required Supplementary Information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The introductory section, the schedules listed in the Supplementary Information section of the table of contents, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedules listed in the Supplementary Information section of the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules listed in the Supplementary Information section of the table of contents are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued a report dated December 13, 2018 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and on compliance.

*Van Lant & Fankhaed, LLP*

December 13, 2018

**Tehachapi-Cummings County Water District  
Management's Discussion and Analysis  
For the Year Ended June 30, 2018**

## **Discussion and Analysis**

As management of the Tehachapi-Cummings County Water District, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2018. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i - iv of this report. All amounts, unless otherwise indicated, are expressed in whole dollars.

## **Financial Highlights**

- The District's total combined cash balance increased \$877,420 (+8%). Restricted cash increased \$519,942 (+17%). Unrestricted cash increased \$357,478 (+4%).
- The District's total combined net position was \$19,574,242 at June 30, 2018, an increase of \$2,165,751 (+12%). Restricted net position increased \$556,665 (+19%). Unrestricted net position increased \$437,844 (+7%).
- During the year, the District's operating revenues decreased by \$81,569 (-2%).
- The District's operating expenses decreased by \$538,515 (-5%).
- Total Long-term Liabilities decreased \$172,357 (-3%).

## **Overview of the Financial Statements**

This annual report includes the management's discussion and analysis report, the independent auditor's report, the basic financial statements of the District, and required supplementary information. The financial statements also include notes that explain in more detail some of the information in the financial statements. The basic financial statements include three types of statements that present different views of the District:

## **Required Financial Statements**

**Government-wide financial statements.** The financial statements of the District report information using accounting methods similar to those used by private sector companies. The **Statement of Net Position** includes all of the District's assets and liabilities. It also provides the basis of evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District.

All of the current year's revenues and expenses are accounted for in the **Statement of Revenues, Expenses and Change in Net Position**. This statement measures the success of the District's operations over the past year and can be used to determine whether the District has successfully recovered all its costs through its user fees and other charges.

**Tehachapi-Cummings County Water District  
Management's Discussion and Analysis  
For the Year Ended June 30, 2018**

The final required financial statement is the **Statement of Cash Flows**. This statement reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, and financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the cash balance during the reporting period.

The government-wide financial statements can be found on pages 11-13 of this report.

**Required supplementary information.** RSI provides additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. This information can be found on pages 33-36 of this report.

**Supplementary information.** In addition to the basic financial statements and required supplementary information, this report also presents other supplementary information.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Tehachapi-Cummings County Water District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District is an enterprise district providing water service. All of the funds of the Tehachapi-Cummings County Water District are related to its water enterprise; therefore, they are considered enterprise funds.

The combining schedules for all of the District's funds can be found on pages 38-41 of this report.

### **Government-wide Financial Analysis**

**Net Position.** As noted earlier, net position may serve over time as a useful indicator of a government's financial strength. In the case of the Tehachapi-Cummings County Water District, assets exceed liabilities by \$19,574,242 at the close of the most recent fiscal year, an increase of \$2,161,751 compared with the prior year (see Table A-1).

The largest portion of the Tehachapi-Cummings County Water District's net position (\$9,484,993) reflects its investment in capital assets (e.g. land, water infrastructure and equipment). The District uses these capital assets to provide services to citizens and its customers; consequently, these assets are not available for future spending.

A portion of the District's net position (\$3,558,393) is externally restricted by state law or debt covenants. See Note 4 on page 23 for additional information about restricted assets.

Unrestricted net position may be used to meet the District's ongoing obligations. As of June 30, 2018, the District shows an unrestricted net position of \$6,530,856, an improvement of \$437,844 from the prior year.

**Tehachapi-Cummings County Water District  
Management's Discussion and Analysis  
For the Year Ended June 30, 2018**

**Table A-1  
Condensed Statements of Net Position  
June 30, 2018 and 2017  
(000's)**

	<u>2018</u>	<u>2017</u>	<u>Dollar Change</u>	<u>Percentage Change</u>
Current and other assets	\$ 13,160	\$ 12,060	\$ 1,100	9%
Capital assets	13,348	12,832	516	4%
Total assets	<u>26,508</u>	<u>24,892</u>	<u>1,616</u>	<u>6%</u>
Deferred outflows of resources	<u>768</u>	<u>546</u>	<u>222</u>	<u>41%</u>
Current liabilities	1,527	1,429	98	7%
Long-term liabilities	5,933	6,101	(168)	-3%
Total liabilities	<u>7,460</u>	<u>7,530</u>	<u>(70)</u>	<u>-1%</u>
Deferred inflows of resources	<u>241</u>	<u>501</u>	<u>(260)</u>	<u>-52%</u>
Net position:				
Net investment in capital assets	9,485	8,314	1,171	14%
Restricted	3,558	3,002	556	19%
Unrestricted	6,531	6,093	438	7%
Total net position	<u>\$ 19,574</u>	<u>\$ 17,409</u>	<u>\$ 2,165</u>	<u>12%</u>

**Changes in Net Position.** The District's total revenues were \$11,785,235. Approximately 69% of the District's revenue came from taxes and assessments during the fiscal year. Twenty-eight percent came from water sales and services, while 3% was related to other revenues. Operating revenues decreased -2% compared with the prior year. Nonoperating revenues increased 4% due to increased taxes and assessments.

During the year, revenues exceeded expenses by \$2,165,751 and net position increased by the same amount.

Net position -- beginning	17,408	16,065	1,343	
Prior period adjustment	-	-	-	
Net position -- ending	<u>\$ 19,574</u>	<u>\$ 17,408</u>	<u>\$ 2,166</u>	

- Operating revenue decreased \$81,569 (-2%). Sales of municipal & industrial water grew by 23%; while revenue from agricultural water sales decreased by -11%, due to changes in customer class demand.

**Tehachapi-Cummings County Water District  
Management's Discussion and Analysis  
For the Year Ended June 30, 2018**

- Operating expenses decreased \$538,515 (-5%) due to an overall decrease in water pumping and distribution operating costs.
- Nonoperating revenues increased 4% primarily due to increases in tax and assessment related revenues.

**Capital Assets and Debt Administration**

**Capital Assets.** At June 30, 2018, the District had invested \$32,637,453 in a broad range of capital assets. (See Table A-3.) This amount represents a net increase (including additions and deductions) of \$1,277,078 or 4% compared with last year due to building improvements and pump plant equipment repair and replacement. See Note 3 on pages 21-22 for more information. Accumulated depreciation increased 4% primarily due to the building and plant acquisitions. The District's capital assets are 59% depreciated.

**Table A-3  
Condensed Statements of Capital Assets  
June 30, 2018 and 2017  
(000's)**

	<b>2018</b>	<b>2017</b>	<b>Dollar Change</b>	<b>Percentage Change</b>
Land	\$ 779	\$ 779	\$ -	0%

Accumulated depreciation	<u>(19,289)</u>	<u>(18,528)</u>	<u>(761)</u>	<u>4%</u>
Total	<u>\$ 13,348</u>	<u>\$ 12,832</u>	<u>\$ 516</u>	<u>4%</u>

**Long-term Liabilities.** At the end of the current fiscal year, the Tehachapi-Cummings County Water District had total debt outstanding of \$6,692,272, a decrease of \$ -3%. This amount includes the Umpqua Bank 2015 installment purchase financing loan and the combined pension and benefits liability. See Note 5 on page 23 for more information.

**Tehachapi-Cummings County Water District  
Management's Discussion and Analysis  
For the Year Ended June 30, 2018**

**Table A-4  
Condensed Statements of Long-term Debt  
June 30, 2018 and 2017  
(000's)**

	<b>2018</b>	<b>2017</b>	<b>Dollar Change</b>	<b>Percentage Change</b>

Pension Liability	2,499	2,095	404	19%
Installment purchase	3,863	4,519	(656)	-15%
Total	<u>\$ 6,692</u>	<u>\$ 6,865</u>	<u>\$ (173)</u>	<u>-3%</u>

**Economic Factors and Next Year's Budgets and Rates**

- Assessed valuation of the Tehachapi-Cummings County Water District will increase by approximately 3% in fiscal year 2018-19. A stable or growing tax base is extremely important for the District, as 69% of the general fund's total revenue in 2017-18 was from general property taxes, which are directly linked to assessed valuation.
- The 2018-19 tax rate reflects balanced State Water Project obligations, revenues and expenditures. The amount required to be collected from the tax levy remains relatively unchanged from the previous fiscal year (0.056778% from 0.056653%).
- The Department of Water Resources provided a 2018 State Water Project allocation of 35%, a below average year for SWP. In 2017-18 the District replaced \$1,151,857 in locally-banked water that was withdrawn during the recent historic drought, reducing the amount reserved for this purpose. The District plans to extract at least 3,150 AF of banked water supply from Kern County Water Agency in 2018-19 to meet demand and recharge goals.
- The sale of agricultural imported water is forecast to decrease in 2018-19 by -8%.
- M&I water sales are forecast to decrease -5% in fiscal year 2018-19.
- No surplus water was sold under voluntary banking agreements in 2017-18. Approximately 600 acre-feet was sold to Golden Hills Community Services District, a Term M&I customer of the district.
- The District will continue its water banking at an accelerated pace on its own account. As of January 1, 2017, all term M&I customers were required to bank water and have executed the required contracts.
- The district has a contract with California Correctional Institution (CCI) to purchase high-quality disinfected tertiary recycled water. This recycled water, through a permit with the State to distribute it, is sold one-third for golf course irrigation and two-thirds for non-food crop agricultural irrigation.

***Tehachapi-Cummings County Water District  
Management's Discussion and Analysis  
For the Year Ended June 30, 2018***

- Investment earnings will be higher than the prior year due to greater cash balances and higher rates of return. For the fiscal year 2017-18, the average yield on money invested in the Kern County Treasury Pool was 1.689% and the average yield on money invested in the Local Agency Investment Fund (LAIF) was 1.854%.
- Employee benefit costs account for 56% on top of salaries and wages in the approved 2018-19 budget.
- Current staffing is 19 full-time employees plus three summer helpers.
- The District has met its goal of purchasing its supply of natural gas at a price of \$5/mmbtu or less over the past nine pumping seasons. As long as the price remains low, water rates should also be stable. The District can now purchase natural gas three years in advance under its contract with Shell. This will serve to stabilize costs and water rates. The district has contracted for the majority of its natural gas needs through 2020.
- The District's pressure zone water rates (developed in 2010) have resulted in revenues that more closely match costs, thereby reducing operating losses in the general fund.
- The adopted 2018-19 budget includes a reserves policy, which sets forth reserve targets and an approach to accumulating those reserves over time. As of June 30, 2018, all of the full reserve targets had been satisfied except for the flood control improvement district funds.
- As in prior years, the District will not establish a budget for depreciation expense.

All of these factors were considered in preparing the Tehachapi-Cummings County Water District's budget for the 2018-19 fiscal year. The Final budget for 2018-19 fiscal year was approved by the Board of Directors on August 15, 2018.

**Contacting the District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District Office at 22901 Banducci Road, Post Office Box 326, Tehachapi, California, 93561 or by email at [tccwd@tccwd.com](mailto:tccwd@tccwd.com).

**Tehachapi-Cummings County Water District**  
**Notes to Financial Statements**  
Year Ended June 30, 2018

**1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A) Reporting Entity**

The Tehachapi-Cummings County Water District (the "District") was established by local election held within the boundaries of the proposed District on February 16, 1965, and by resolution of the Kern County Board of Supervisors in accordance with the provisions of the County Water District Law, Division 12, Section 30,000 ET. seq., of the Water Code of the State of California. The District is a successor to the Tehachapi-Cummings Water Conservation District and by motion of the Board of Directors all of its existing assets, liabilities and equities were transferred to the newly formed District effective April 15, 1965. The District is governed by a Board of Directors comprised of five members who are voters within the District.

The District was formed to provide for the organization and management of water works by the acquisition or construction of water facilities for distribution and sale of water. The District's area is approximately 266,000 acres.

The accompanying financial statements present the District and its component units, entities for which the District is considered to be financially accountable. Currently, the District has no such component units to report.

**B) Financial Reporting**

The District has adopted the provisions of Governmental Accounting Standards Board Statement No. 34, "*Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments.*" Statement No. 34, as amended, established standards for external financial reporting for all state and local governmental entities, which includes a statement of net position, a statement of activities and changes in net position, and a statement of cash flows. It requires the classification of net position into three components – net investment in capital asset; restricted; and unrestricted. These classifications, as stated in Governmental Accounting Standards Board Statement No. 63, "*Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position,*" which was implemented by the District in the 2012-13 fiscal year, are defined as follows:

Net Investment in Capital Assets Component of Net Position: This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of invested in capital assets, net of related debt. Rather, that portion of the debt is included in the same net position components as the unspent proceeds.

Restricted Component of Net Position: This component of net position consists of constraints placed on net position use through external constraints imposed by creditors, grantors, contributors, or laws and regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted Component of Net Position: This component of net position consists of net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that do not meet the definition of "restricted" or "net investment of capital assets."

**Tehachapi-Cummings County Water District**  
**Notes to Financial Statements**  
Year Ended June 30, 2018

**1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

**C) Fund Accounting**

The District utilizes accounting for enterprise entities that account for operations (a) that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or, (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The District distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an enterprise fund's principal ongoing operations. Principal operating revenues of the District are charges for water sales. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

**D) Basis of Accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned and expenses are recognized when incurred regardless of the timing of cash payments or receipts.

**E) Basis of Presentation**

The District's basic financial statements are presented using the *economic resources measurement focus* and the *accrual basis of accounting* and conform to accounting principles generally accepted in the United States of America.

When both restricted and unrestricted resources are available for use, it is the District's practice to first expend restricted resources, subsequently utilizing unrestricted resources as needed.

**F) Accounts Receivable**

The District provides for probable uncollectible amounts in accounts receivable through a charge to earnings and a credit to a valuation allowance based on its assessments of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to trade accounts receivable. Changes in the valuation allowance have not been material to the financial statements.

**G) Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents consumption of net position that applies to future period(s) and so will not be recognized as an outflow of resources (expense) until then. The District reports deferred outflows related to the pension and OPEB contributions in accordance with GASB Statements No. 68 and 75.

**Tehachapi-Cummings County Water District**  
**Notes to Financial Statements**  
Year Ended June 30, 2018

**1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item, which is a result of the City's implementation of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, which qualifies for reporting in this category.

**H) Use of Estimates**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**I) Capital Assets**

Capital assets are stated at cost and are being depreciated over their estimated useful lives, ranging from 5 to 50 years. The District uses a capitalization threshold of \$5,000. Donated capital assets received prior to the implementation of GASB 72 were recorded at fair value on the date of donation. Donated capital assets received subsequent to the implementation of GASB 72 are recorded at acquisition value as of the date received. Depreciation of capital assets is computed principally on the straight-line method over the following estimated useful lives:

	Years
Buildings	40-50
Wells, Pipelines and Other Delivery Infrastructure	20-75
Transportation Equipment	7-15
Office Equipment	5-10

Maintenance and repairs of capital assets are charged to operations and major improvements are capitalized. Upon retirement, sale or other disposition of capital assets, the cost and accumulated depreciation are eliminated from the accounts and a gain or loss is included in operations.

**J) Flood Control Improvement Districts No. 2, No. 3, and Assessment Zone No. 1**

These three special improvement districts are maintained separate from other activities of the Tehachapi-Cummings County Water District, although falling within its jurisdiction. The District is responsible for the maintenance of the three flood control districts which impose a separate tax on property within their boundaries for maintenance of facilities. As special improvement districts, no depreciation of capital assets is recognized.

**K) Compensated Absences**

Accumulated unpaid employee vacation and sick leave benefits are accrued by the District. The total accumulated vacation and sick leave benefits included in these financial statements as compensated absences payable amounted to \$240,139 at June 30, 2018.

**Tehachapi-Cummings County Water District**  
**Notes to Financial Statements**  
Year Ended June 30, 2018

**1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

**L) Taxes Receivable and Allowance for Delinquent Taxes**

Unapportioned taxes in the County Treasury at year-end are recorded as current assets of the District. Delinquent taxes for the current year are only recognized as assets and are offset by an allowance of equal amount, having the effect of a zero balance for delinquent taxes receivable.

**M) Inventory of Water in Storage**

Water in the District's reservoir facility at June 30, 2018 measured approximately 1,400 acre-feet. Of this amount, 450 acre-feet is considered a minimum pool for emergency reserve. The remaining 950 acre-feet in storage on June 30, 2018 is for the purpose of agricultural peaking when the demand is greater than the system pumping capacity. Value of this water is not recorded as an asset of the District; said policy is consistent with prior years.

**N) Property Taxes**

Under California law, property taxes are assessed and collected by counties for up to 1 percent of assessed value, plus other increases as approved by affected voters. Property tax revenues are pooled and then allocated based on assessed valuation. Property taxes on the second rolls are payable in two installments, November 1 and February 1. Property tax payments become delinquent after December 10 and April 10, respectively.

Property taxes are assessed and collected each fiscal year according to the following property tax calendar:

Lien Date	January 1	
Levy Date	July 1 to June 30	
Due Date	November 1	- 1 <sup>st</sup> Installment
	February 1	- 2 <sup>nd</sup> Installment
Delinquent Date	December 10	- 1 <sup>st</sup> Installment
	April 10	- 2 <sup>nd</sup> Installment

**O) Cash and Cash Equivalents**

For purposes of reporting cash flows, the District considers highly liquid investments (including restricted assets) with an original maturity of three months or less to be cash equivalents. Cash and cash equivalents also include cash on hand and amounts deposited with banks and the Kern County Treasurer's office.

**P) Investments**

Investments are reported in the accompanying Statement of Net Position at fair value.

**Q) Interest**

The District incurs interest charges on long-term debt. There was no interest capitalized for the year ended June 30, 2018.

**Tehachapi-Cummings County Water District**  
**Notes to Financial Statements**  
Year Ended June 30, 2018

**1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

**R) Pensions**

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Tehachapi-Cummings County Water District's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**S) Other Postemployment Benefits (OPEB)**

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's Plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value. Generally accepted accounting principles require that the reported results must pertain to liability and asset information within curtailed defined timeframes. For this report, the following timeframes are used:

Valuation Date	June 30, 2017
Measurement Date	June 30, 2018
Measurement Period	July 1, 2017 to June 30, 2018

**2) CASH AND INVESTMENTS**

Cash and Investments as of June 30, 2018 are classified in the accompanying financial statements as follows:

Current Assets - Cash	\$ 8,682,026
Noncurrent Assets - Restricted Cash	<u>3,552,014</u>
Total Cash	<u>\$ 12,234,040</u>

Cash and investments as of June 30, 2018 consist of the following:

Petty Cash	\$ 500
Deposits with Financial Institutions	543,563
Local Agency Investment Fund (LAIF)	702,003
Pooled with Kern County	<u>10,987,974</u>
Total Cash and Investments	<u>\$ 12,234,040</u>

**Tehachapi-Cummings County Water District**  
**Notes to Financial Statements**  
Year Ended June 30, 2018

**2) CASH AND INVESTMENTS - Continued**

**Investments Authorized by the District's Investment Policy**

The District's investment policy authorizes investment of funds in the Investment Pool of the County of Kern and LAIF. The investment policy does not address investment of debt proceeds held by bond trustee that are governed by the provisions of debt agreements.

**Disclosures Relating to Interest Rate Risk and Credit Risk**

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing funds only in the County investment pool and LAIF; however, the District does not have a formal policy regarding interest rate risk.

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District does not have a formal policy regarding credit risk. Neither the County investment pool or LAIF are rated.

As of June 30, 2018, the District had the following investments and maturities:

Investment Type	Fair Value	Investment Maturities		
		Less than 1 Year	1 Year to 5 Years	6 Years to 10 Years
County Pool	\$ 10,987,974	\$ 10,987,974	\$ -	\$ -
Local Agency Investment Fund	702,003	702,003	-	-
<b>Total</b>	<b>\$ 11,689,977</b>	<b>\$ 11,689,977</b>	<b>\$ -</b>	<b>\$ -</b>

**Concentration of Credit Risk**

The investment policy of the District contains no limitation on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. As of year-end, the District had no investments in any one issuer (other than U.S. Treasury Securities, mutual funds, and external investments pools) that represent 5% or more of total District investments.

**Custodial Credit Risk**

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

**Tehachapi-Cummings County Water District**  
**Notes to Financial Statements**  
Year Ended June 30, 2018

**2) CASH AND INVESTMENTS - Continued**

The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local government units by pledging securities in an undivided collateral pool held by depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure District deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

As of June 30, 2018, the District did not have deposits with financial institutions in excess of federal depository insurance limits.

**Fair Value of Investments**

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District's fair value measurements are as follows:

*Investment in State Investment Pool*

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

*County Pool*

Cash funds deposited with the Kern County Treasurer's office are in a pooled money fund. The County of Kern Investment Pool is subject to regulatory oversight by the Treasury Oversight Committee, as required by California Government Code Section 27143. Pooled funds may be invested in: (1) direct obligations of the United States government to the payment of which the full faith and credit of the United States government is pledged, (2) certificates of deposit at savings and loan associations and federally insured banks when secured by acceptable collateral and, (3) savings accounts at savings and loan associations and banks, to the extent fully insured. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County for the entire County portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County, which are recorded on an amortized cost basis.

**3) CAPITAL ASSETS**

Presented below is the District's capital asset activity for the 2017-18 fiscal year:

**Tehachapi-Cummings County Water District**  
**Notes to Financial Statements**  
Year Ended June 30, 2018

**3) CAPITAL ASSETS - Continued**

	Beginning Balance	Increases	Decreases	Ending Balance

**4) RESTRICTED ASSETS**

**Water Payment Fund**

This cash is restricted by tax assessment for payment of the District's obligations to the Kern County Water Agency for the District's share of State Water Project costs pursuant to contracts for agricultural water and municipal and industrial water.

**Improvement District #2 Fund**

This cash is restricted by tax assessment for flood control maintenance, operations and capital improvements within the boundaries of Improvement District #2.

**Tehachapi-Cummings County Water District**  
**Notes to Financial Statements**  
Year Ended June 30, 2018

**4) RESTRICTED ASSETS - Continued**

**Improvement District # 3 Fund**

This cash is restricted by tax assessment for operations and improvements within Improvement District #3.

**Assessment Zone #1 Fund**

This cash is restricted by tax assessment for operations and improvements within Assessment Zone #1.

Cash is restricted at June 30, 2018 as follows:

Water Payment Fund	\$	2,429,805
Improvement District #2		97,132
Improvement District #3		165,536
Assessment Zone #1		814,805
Customer Deposits		44,737
		44,737
	\$	3,552,014

**5) LONG-TERM LIABILITIES**

The following summarizes changes in long-term liabilities for the year ended June 30, 2018:

	Beginning Balance	Additions	Deletions	Ending Balance	Due Within One Year
Compensated Absences	\$ 251,070	\$ 69,520	\$ 80,451	\$ 240,139	\$ 86,450
Net OPEB Liability	-	89,618	-	89,618	-
Net Pension Liability	2,094,927	404,377	-	2,499,304	-
2015 Installment Agreement	4,518,632	-	655,421	3,863,211	672,207
<b>Total Long-term Liabilities</b>	<b>\$ 6,864,629</b>	<b>\$ 563,515</b>	<b>\$ 735,872</b>	<b>\$ 6,692,272</b>	<b>\$ 758,657</b>

**2015 Installment Agreement**

As of April 1, 2015, the District entered into an installment purchase agreement with Umpqua Bank (Bank), to finance certain improvements to the District's water system (project). The Bank agreed to provide project funds of up to \$7,000,000, of which the District received \$5,780,810 at project completion. Installment payments include principal and interest at 2.51% per annum. Amounts borrowed are secured by net revenues received by the District from ownership and operation of the water system. The future debt service requirements are as follows:

Year Ending June 30,	Principal	Interest	Total
2019	\$ 672,207	\$ 94,077	\$ 766,284
2020	689,138	77,061	766,199
2021	707,071	59,213	766,284
2022	725,180	41,104	766,284
2023	743,752	22,532	766,284
2024	325,863	4,158	330,021
Total	\$ 3,863,211	\$ 298,145	\$ 4,161,356

**Tehachapi-Cummings County Water District**  
**Notes to Financial Statements**  
Year Ended June 30, 2018

**6) DEFINED BENEFIT PENSION PLAN**

**General Information about the Pension Plan**

**Plan Description** – All qualified permanent and probationary employees are eligible to participate in the Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (Plan) administered by the California Public Employees’ Retirement System (CalPERS). The Plan consists of individual rate plans (benefit tiers) within a miscellaneous risk pool. Plan assets may be used to pay benefits for any employer rate plan of the miscellaneous pool. Accordingly, rate plans within the miscellaneous pool are not separate plans under GASB Statement No. 68.

Individual employers pay sponsor more than one rate plan in the miscellaneous pool. The District sponsors two rate plans. Benefit provisions under the Plan are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

**Benefits Provided** – The Plan is a cost-sharing multiple-employer defined benefit pension plan administered by the California Public Employees’ Retirement System (CalPERS). A full description of the pension plan benefit provisions, assumptions for funding purposes but not accounting purposes, and membership information is listed in the June 30, 2016 Annual Actuarial Valuation Report. Details of the benefits provided can be obtained in Appendix B of the June 30, 2016 actuarial valuation report. This report is a publicly available valuation report that can be obtained at CalPERS’ website under Forms and Publications. The rate plan provisions and benefits in effect at June 30, 2018, are summarized as follows:

	Miscellaneous	
	Prior to January 1, 2013	On or after January 1, 2013
Hire date		
Benefit formula	2% @ 60	2% @ 62
Benefit vesting schedule	5 years service	5 years service
Benefit payments	monthly for life	monthly for life
Retirement age	50	50
Monthly benefits, as a % of eligible compensation	2%	2%
Required employee contribution rates	7%	6.50%
Required employer contribution rates	7.993% + \$91,510	6.625% + \$168

**Contributions** – Section 20814(c) of the California Public Employees’ Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan is determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The District pays the required employee contribution on behalf of the employees.

Beginning in fiscal year 2016, CalPERS collects employer contributions for the Plan as a percentage of payroll for the normal cost portion as noted in the rates above and as a dollar amount for contributions toward the unfunded liability. The dollar amounts are billed on a monthly basis. The District’s required contribution for the unfunded liability was \$91,678 in fiscal year 2018.

The District’s contributions to the Plan for the year ended June 30, 2018 were \$200,814.

**Tehachapi-Cummings County Water District**  
**Notes to Financial Statements**  
Year Ended June 30, 2018

**6) DEFINED BENEFIT PENSION PLAN - Continued**

**Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions**

As of June 30, 2018, the District reported a liability of \$2,499,304 for its proportionate share of the net pension liability. The District's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2017, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016 rolled forward to June 30, 2017 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

The District's proportionate share of the net pension liability as of June 30, 2017 and 2018 was as follows:

	Miscellaneous
Proportion - June 30, 2017	0.06031%
Proportion - June 30, 2018	0.06340%
Change - Increase (Decrease)	0.00309%

For the year ended June 30, 2018, the District recognized pension expense of \$390,419. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows	Deferred Inflows
Pension contributions subsequent to measurement date	\$ 200,814	\$ -
Differences between actual and expected experience	-	51,405
Changes in assumptions	442,102	-
Change in employer's proportion	16,731	-
Differences between employer's contributions and proportionate share of contributions	-	190,020
Net differences between projected and actual earnings on plan investments	108,239	-
<b>Total</b>	<b>\$ 767,886</b>	<b>\$ 241,425</b>

\$200,814 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ending June 30,		
2019	\$	30,701
2020		233,361
2021		125,847
2022		(64,262)
2023		-
Thereafter		-

**Tehachapi-Cummings County Water District**  
**Notes to Financial Statements**  
Year Ended June 30, 2018

**6) DEFINED BENEFIT PENSION PLAN – Continued**

**Actuarial Assumptions** – The total pension liabilities in the June 30, 2016 actuarial valuations were determined using the following actuarial assumptions:

	Miscellaneous
Valuation date	June 30, 2016
Measurement date	June 30, 2017
Actuarial cost method	entry-age normal
Actuarial assumptions:	
Discount rate	7.15%
Inflation	2.75%
Payroll growth	3.00%
Projected salary increase	(1)
Investment rate of return	7.15%
Mortality	(2)

(1) Varies by entry age and service

(2) Derived using CalPERS' Membership Data for all Funds.

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2016 valuation were based on the results of a January 2014 actuarial experience study for the period 1997 to 2011. Further details of the Experience Study can be found on the CalPERS website.

**Discount Rate** – The discount rate used to measure the total pension liability was 7.15% for each Plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.15 percent will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

CalPERS is scheduled to review all actuarial assumptions as part of its regular Asset Liability Management (ALM) review cycle that is scheduled to be completed in February 2018. Any changes to the discount rate will require Board action and proper stakeholder outreach. For these reasons, CalPERS expects to continue using a discount rate net of administrative expenses for GASB 67 and 68 calculations through at least the 2017-18 fiscal year. CalPERS will continue to check the materiality of the difference in calculation until such time as we have changed our methodology. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one

**Tehachapi-Cummings County Water District**  
**Notes to Financial Statements**  
Year Ended June 30, 2018

**6) DEFINED BENEFIT PENSION PLAN - Continued**

quarter of one percent. The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

Asset Class	New Strategic Allocation	Real Return Years 1 - 10 (1)	Real Return Years 11+ (2)
Global Equity	47%	4.90%	5.38%
Global Fixed Income	19%	0.80%	2.27%
Inflation Sensitive	6%	0.60%	1.39%
Private Equity	12%	6.60%	6.63%
Real Estate	11%	2.80%	5.21%
Infrastructure and Forestland	3%	3.90%	5.36%
Liquidity	2%	-0.40%	-0.90%

(1) An expected inflation of 2.5% used for this period.

(2) An expected inflation of 3.0% used for this period.

**Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate –**

The following presents the District's proportionate share of the net pension liability for each Plan, calculated using the discount rate for each Plan, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	Miscellaneous
1% Decrease	6.15%
Net Pension Liability	\$ 4,076,891
Current Discount Rate	7.15%
Net Pension Liability	\$ 2,499,304
1% Increase	8.15%
Net Pension Liability	\$ 1,192,718

**Pension Plan Fiduciary Net Position** – Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

**Payable to the Pension Plan** – At June 30, 2018, the District reported no payables for the year ended June 30, 2018.

**7) OTHER POSTEMPLOYMENT BENEFITS**

**General Information about the OPEB Plan**

**Plan Description**

The District has established a Retiree Healthcare Plan (HC Plan), and participates in an agent multiple-employer defined benefit retiree healthcare plan. A separate financial report is not prepared for the HC Plan.

**Benefits Provided**

The HC Plan provides employees who retire directly from the District, at a minimum age of 50, with a minimum of twenty-five years of service, a 50% cash subsidy for monthly medical insurance premiums for employee-only

**Tehachapi-Cummings County Water District**  
**Notes to Financial Statements**  
Year Ended June 30, 2018

**7) OTHER POST EMPLOYMENT BENEFITS – Continued**

coverage. Payments cease at age 65 when the retiree is eligible for Medicare. Employees who retire directly from the District at a minimum age of 50 with a minimum of twenty-five years of full-time service are eligible to continue medical coverage as a participant with active employees at a blended premium rate until eligible for Medicare at age 65 as an implied subsidy.

**Employees Covered**

As of the June 30, 2017 actuarial valuation, the following current and former employees were covered by the benefit terms under the HC Plan:

Retirees currently receiving benefits	1
Active employees	21
Total	22

**Contributions**

The HC Plan and its contribution requirements are established by Board Resolution No. 21-11, Agreement and Election of TCCWD to Prefund Other Postemployment Benefits Through CalPERS, adopted 12/21/2011. The annual contribution is based on the actuarially determined contribution.

For the fiscal year ended June 30, 2018, the District’s cash contributions were \$13,210 in payments to the trust and the payments for retiree health benefits were \$3,290. In December of 2011 the District created a trust account with the California Public Employers’ Retiree Benefit Trust (CERBT) Fund.

**Net OPEB Liability**

The District’s net OPEB liability was measured as of June 30, 2018 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated June 30, 2017, based on the following actuarial methods and assumptions:

<b>Actuarial Assumptions:</b>	
Discount Rate	6.12%
Inflation	4.00%
Salary Increases	3.3% per annum, in aggregate
Investment Rate of Return	6.12%
Mortality Rate *	Derived using CalPERS’ Membership Data for all funds
Preretirement Turnover **	Derived using CalPERS’ Membership Data for all funds
Healthcare Trend Rate	7.00% HMO/7.50% PPO decreasing to 4.50% HMO/4.50% PPO

\*Pre-retirement mortality information was derived from data collected during 1997 to 2011 CalPERS Experience Study dated January 2014 and post-retirement mortality information was derived from the 2007 to 2011 CalPERS Experience Study. The Experience Study Reports may be accessed on the CalPERS website at [www.calpers.ca.gov](http://www.calpers.ca.gov).

\*\*The pre-retirement turnover information was developed based on CalPERS’ specific data. For more details, please refer to the 2007 to 2011 Experience Study Report. The Experience Study Report may be accessed on the CalPERS website at [www.calpers.ca.gov](http://www.calpers.ca.gov) under Forms and Publications.

**Tehachapi-Cummings County Water District**  
**Notes to Financial Statements**  
Year Ended June 30, 2018

**7) OTHER POST EMPLOYMENT BENEFITS – Continued**

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Rate of Return
Inflation Assets	5%	1.25%
Global Debt Securities	27%	2.25%
Global Equities	57%	5.25%
REITs	8%	4.50%
Commodities	3%	1.25%
Total	<u>100.00%</u>	

**Discount Rate**

The discount rate used to measure the total OPEB liability was 6.12 percent. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees and beneficiaries. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

**Changes in the Net OPEB Liability**

	Increase (Decrease)		
	Total OPEB Liability (TOL)	Plan Fiduciary Net Position	Net OPEB Liability/(Asset)
Balance at June 30, 2017 ( <i>Valuation Date June 30, 2017</i> )	\$ 157,547	\$ 62,982	\$ 94,565
Changes in the year:			
Service cost	3,397	-	3,397
Interest on the total OPEB liability	9,632	-	9,632
Employer Contributions	-	13,210	(13,210)
Actual Investment Income	-	3,754	(3,754)
Benefit payments, including refunds	(3,290)	(3,290)	-
Administrative expenses	-	-	-
Other	(1,012)	-	(1,012)
Net changes	<u>8,727</u>	<u>13,674</u>	<u>(4,947)</u>
Balance at June 30, 2018 ( <i>Measurement Date June 30, 2018</i> )	<u>\$ 166,274</u>	<u>\$ 76,656</u>	<u>\$ 89,618</u>

**Tehachapi-Cummings County Water District**  
**Notes to Financial Statements**  
Year Ended June 30, 2018

**7) OTHER POST EMPLOYMENT BENEFITS – Continued**

**Sensitivity of the Net OPEB Liability to changes in the Discount Rate**

The following presents the net OPEB liability of the Authority if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate, for the measurement period ended June 30, 2017:

	1% Decrease (5.12%)	Discount Rate (6.12%)	1% Increase (7.12%)
Net OPEB liability (asset)	\$ 104,671	\$ 89,618	\$ 75,671

**Sensitivity of the Net OPEB Liability to changes in the Healthcare Cost Trend Rates**

The following presents the net OPEB liability of the District, as well as what the District's Net OPEB would be if it were calculated using a healthcare cost trend rate that is 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rate:

	1% Decrease	Current Trend Rates	1% Increase
Net OPEB liability (asset)	\$ 74,671	\$ 89,618	\$ 105,471

**OPEB Plan Fiduciary Net Position**

CERBT issues a publicly available financial report that may be obtained from the California Public Employers' Retirement System (CalPERS) website.

**OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB**

For the year ended June 30, 2018, the District recognized OPEB expense of \$22,784. There were no deferred outflows or deferred inflows related to the net OPEB liability as of June 30, 2018.

**8) RISK MANAGEMENT**

The District is a member of the Association of California Water Agencies, Joint Powers Insurance Authority (JPIA). JPIA is a group of California Water Districts who have pooled funds to provide self-insurance coverage as follows:

Type of Coverage	Limits per Occurrence	
	Pooled Self-Insured	Excess Insurance
General, Automobile and Public Officials Liability	\$ 1,000,000	\$ 1,000,000 - 59,000,000
Property Insurance	\$ 50,000	\$ 50,000 - 100,000,000
Fidelity Insurance	\$ 100,000	\$ -
Dam Failure Liability	\$ 50,000	\$ 5,000,000
Workers' Compensation	\$ 2,000,000	\$ 2,000,000 - statutory

Year Ended June 30, 2018

**8) RISK MANAGEMENT – Continued**

The District is in a group that has a \$5,000 retention level (deductible) per occurrence for property damage due to theft and natural causes. Property includes buildings, personal property, fixed equipment, mobile equipment, and turbines, generators and transformers. For mechanical damages to turbines, generators and transformers, the deductible ranges from \$10,000 to \$25,000. Also, included in the cost of the property insurance is fidelity insurance with a \$1,000 deductible. There is a \$1,000 deductible on mobile equipment and a \$2,500 deductible for licensed vehicles. The auto and general liability program no longer has a deductible.

Claims over the retention levels are insured by the group up to the self-insurance limits and by policies purchased by JPIA from various insurance companies for the excess. JPIA bills the District a deposit premium at the beginning of each policy year, which is placed in a reserve fund to cover the self-insurance portion of any claim. Settlements and/or expenses related to claims during the year are charged against the reserve. If the balance of the reserve at the end of the year is deemed too low in relation to the outstanding claims, the District is retrospectively billed for additional premiums. When the claims are fully settled, any amounts remaining in the reserve are refunded to the District. There have been no losses exceeding coverage limits during any of the previous three years.

**9) COMMITMENTS AND CONTINGENCIES**

**Water Supply Contract with Kern County Water Agency**

The District obtained its surface water supply in accordance with certain contracts signed in December 1966 with the Kern County Water Agency (Agency), amended to its current annual amount of 19,300 acre-feet of entitlement surface water, through the year 2039, for a supply of water for agricultural purposes and for municipal and industrial water purposes. To the extent water under these contracts is not taken, it can be returned for credit. Credit for water not taken is received the following calendar year.

The Kern County Water Agency will also guarantee the sale of excess municipal and industrial water to other members of the Agency. The Agency, in turn, obtained its surface water supply in 1963 when it signed a contract with the State of California, Department of Water Resources (DWR), to purchase annual surface water, currently contracted at 982,730 acre-feet, through the State Water Project (SWP) through the year 2039.

The District's contract with the Agency provides for various separate charges, all of which are included in "Source of Supply" in Operating Expenses of the District's Statement of Revenue and Expenses. The "fixed charge" component of the contract is not necessarily reduced by annual water supply deficiencies as the District is obligated to pay 100% of the annual fixed costs billed to the Agency. Under certain circumstances, fixed charges could be reduced by the DWR when the District receives less than its full entitlement in years of low water supply. Source of supply costs attributable to this contract were \$2,631,392 the year ended June 30, 2018.

**Natural Gas Purchase Commitment**

The District has entered into contracts with Shell Energy North America to purchase natural gas. These commitments vary in the amount of natural gas to be purchased and when the natural gas will be delivered to the District.

**Property Tax Appeals**

Certain taxpayers within Kern County have made appeals to the County for reductions of their property taxes. These pending appeals may affect the amount of property taxes the District receives in the future. However, the amounts of any future reductions are currently unknown.

**Tehachapi-Cummings County Water District**  
**Notes to Financial Statements**  
Year Ended June 30, 2018

**10) PROPOSITION 84 IMPLEMENTATION GRANT**

The District was awarded a Proposition 84 grant for approximately \$680,000. The funds are paid to the District on a reimbursable basis and are to be spent on water conservation efforts with a goal to reduce potable water demand by approximately 109 acre feet per year.

**11) IMPLEMENTATION OF NEW GASB PRONOUNCEMENTS**

GASB has issued the following Statements, which may impact the District's financial reporting requirements in the future:

*GASB 83 - Certain Asset Retirement Obligations:* This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018.

*GASB 84 - Fiduciary Activities:* This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018.

*GASB 87 – Leases:* This Statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019.

*GASB 88 – Certain Disclosures Related to Debt:* The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018.

*GASB 89 – Accounting for Interest Cost Incurred before the End of a Construction Period:* This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019.

*GASB 90 – Majority Equity Interests:* The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018.

In addition, the District implemented the following GASB pronouncements as of June 30, 2018:

*GASB 75 - Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions:* This statement was issued to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions. As a result, the District is now reporting a Net OPEB Liability in these financial statements, and related deferred outflows/inflows, as applicable. There were no prior period adjustments reported for the implementation of this pronouncement, due to the insignificance of the amounts involved.

## **SUPPLEMENTARY INFORMATION**

**Tehachapi-Cummings County Water District**  
**Rate Covenant**  
Year Ended June 30, 2018

The District has covenanted to establish, maintain, and collect gross revenues (but excluding the items referred to in subsection (iv) of the definition thereof) in each fiscal year sufficient to provide net revenues which, together with all other available revenues will be equal to at least 1.25 times the sum of: (1) the annual loan repayments due each fiscal year, and (2) the aggregate amount debt service or other payments due in such fiscal year with respect to outstanding debt of the District.

The rate covenant for the 2017-18 fiscal year is as follows:

Rate Covenant: Net Revenues + all other available revenues  
Installation payments due in the fiscal year

The rate covenant is calculated as follows:

General Activities:	
Operating Revenue	\$ 3,295,926
Nonoperating Revenue	5,133,198
Total Gross Revenue	8,429,124
Less: Operation and Maintenance Expenses	(6,755,111)
Add: Depreciation Expense	820,972
Add: Interest Expense	110,863
Net Revenues	\$ 2,605,848 (a)
Annual Debt Service:	
2015 Installment Agreement - Principal	\$ 655,421
2015 Installment Agreement - Interest	110,863
Total Debt Service in Fiscal Year 2016-17	\$ 766,284 (b)
Rate Covenant Calculation (a)/(b):	3.40 %

## **STATISTICAL SECTION**

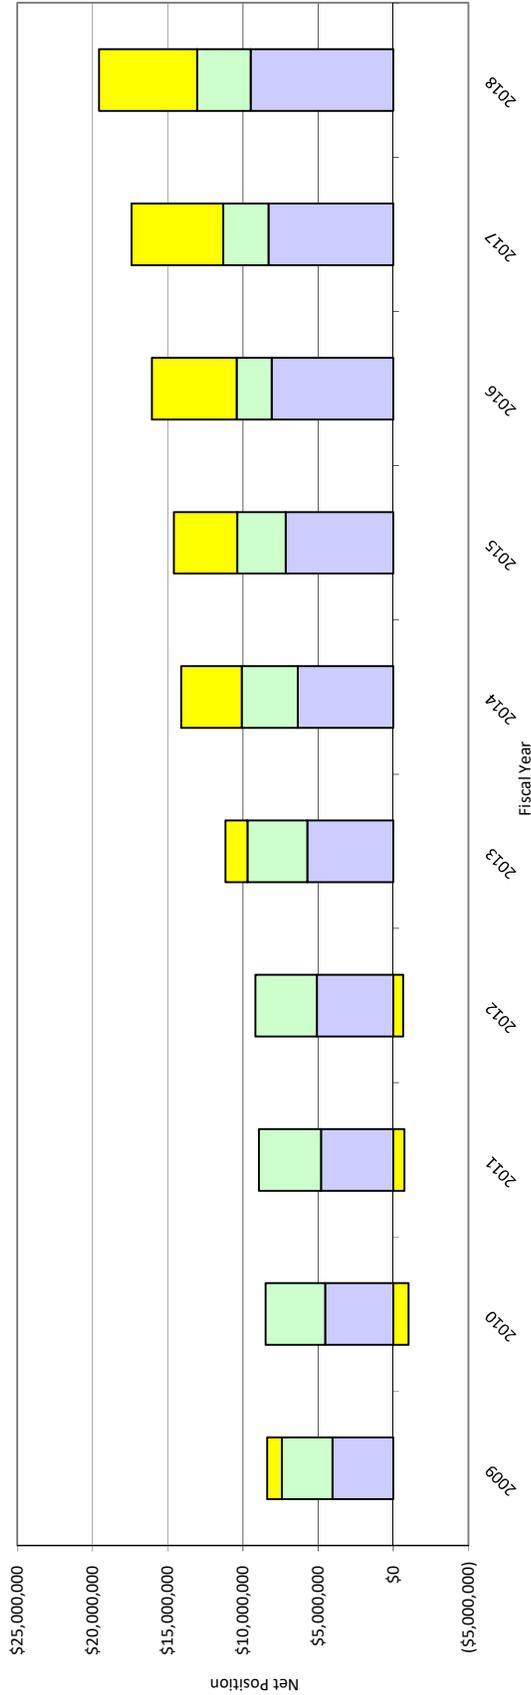

## STATISTICAL SECTION

This part of the Tehachapi-Cummings County Water District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

<b>CONTENTS</b>	<b>PAGE</b>
<b>Financial Trends</b>	
These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.	43
<b>Revenue Capacity</b>	
These schedules contain information to help the reader assess the government's most significant local revenue source and property tax revenues. Additional information is provided for the agency's other significant own-source revenue, water rates and charges.	45
<b>Debt Capacity</b>	
These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	52
<b>Demographic and Economic Information</b>	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.	55

**Notes:** Unrestricted net position in 2010 and later is affected by a prior-period adjustment pertaining to the booking of a liability for pension-related debt for a CalPERS side fund balance. That side-fund was paid in full in June 2012 with a new six-year financing in the amount of \$1,719,700. Note: Loan balance paid-in-full December 2016.

GASB 68 relating to the booking of net pension liability became effective in fiscal year 2015. A prior period adjustment of (\$2,079,960) affects unrestricted net position in 2015.

**Source:** Kern County Auditor-Controller

**Note:** Estimated actual value is the prior year's estimated actual value times the change in population times the change in house values as expressed in dollars per square foot as reported by Kerndata.com. (Population is used as a proxy for growth and \$/sf for existing residential is a proxy for real estate market value) Unfortunately, this estimate does not take into consideration the taxable value of industrial improvements, such as, the two cement plants and the expansion of wind turbines on the east side of the district. Tax rate is per \$1,000 of assessed value.

<sup>1</sup> Includes tax-exempt property

**Source:** Tehachapi-Cummings CWD Board resolutions.

**Notes:** Commodity charge includes state tax shift surcharge during fiscal years 2005 and 2006.

In 2010 the district established three pressure zones with varying rates. In addition to the commodity charges, customers taking recharge water pay a \$15/AF surcharge and a 6% spreading loss surcharge.
