

TEHACHAPI-CUMMINGS COUNTY WATER DISTRICT

RESOLUTION NO. 02-24

A RESOLUTION OF THE BOARD OF DIRECTORS OF
TEHACHAPI-CUMMINGS COUNTY WATER DISTRICT
AMENDING ITS ANNUAL BUDGET FOR THE FISCAL YEAR 2023-24

A. Recitals.

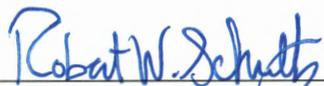

1. A fiscal budget is necessary for the orderly administration of public funds and the systematic operation of this County Water District.
2. A budget is required by County Water District Code and other state laws.
3. Due to unforeseen events having financial impact on the District, it is necessary and prudent to amend the fiscal year 2023-24 adopted budget.

B. Resolution.

IT IS HEREBY FOUND, DETERMINED AND RESOLVED by the Board of Directors of Tehachapi-Cummings County Water District as follows:

1. Each of the above recitals is true and correct and the Board so finds and determines.
2. The fiscal year 2023-24 adopted budget is hereby amended as shown in Exhibit A attached hereto.

ADOPTED this 17th day of January 2024.

Robert W. Schultz, Board President

ATTEST:

Catherine Adams, Board Secretary

SECRETARY'S CERTIFICATE

I, CATHERINE ADAMS, Secretary of the Board of Directors of Tehachapi-Cummings County Water District, hereby certify as follows:

The foregoing is a full, true and correct copy of a resolution duly adopted at a regular meeting of the Board of Directors of the District duly and legally held at the regular meeting place thereof on January 17, 2024. All of the members of the Board of Directors received due notice of the meeting and a majority thereof was present. At the meeting the resolution was adopted by the following vote:

AYES: Ables, Hall, Sasia, Schultz, Zanutto

NOES: None

ABSTAIN: None

ABSENT: None

ATTEST:

Catherine Adams, Board Secretary

(SEAL)

Tehachapi-Cummings County Water District

Fiscal Year 2023-24

Final Budget

Regular Board Meeting

Adopted August 16, 2023

Amended January 17, 2024

Tehachapi-Cummings County Water District

August 16, 2023 (Amended January 17, 2024)

To the Citizens and Taxpayers of the Tehachapi-Cummings County Water District, including the Board of Directors:

I am pleased to present the mid-year amended budget for fiscal year 2023-24. The Tehachapi-Cummings County Water District's (District) amended operating budget reflects expenses in excess of revenues in the amount of \$2,027,118. This is a \$1,379,118 further increase in the \$648,000 operating shortfall in the adopted final budget. The increase in shortfall mostly pertained to a decision made by the Board to authorize a payment to CalPERS to pay \$1,153,700 for the District's unfunded accrued pension liability, providing the District with net cost savings of up to \$191,000 in future interest expense. Since the payment to CalPERS was already funded with a \$1,200,000 transfer from reserves in October 2023, no further transfers are necessary. The Board-approved reserve targets will be met or satisfied in every category except flood control. Imported water sales revenues in the general fund are projected to increase 125% compared to the 2022-23 budget. Property tax revenues in the general fund are projected to increase 4% compared to the 2023-23 budget. To begin the fiscal year, all general fund, designated liquidity fund reserve targets were fully funded. The general fund, designated capital fund reserve is relatively new and progressing to a fully funded status, per our reserves policy. Here are some of the highlights from the 2023-24 mid-year amended budget:

- General fund operating revenues are projected to increase over the prior year's budget by \$1,354,500 (61%).
- General fund property tax revenues are projected to increase over the prior year's budget by \$305,000 (4%).
- Overall, the general fund revenues are projected to increase by \$1,828,812 (20%) compared with the prior year's budget.
- General fund total expenditures are projected to increase by \$4,087,646 (45%) over the prior year's budget.
- Salaries & benefits budget is projected to increase \$790,680 (23%) over the prior year's budget.
- The Board has authorized transfers to general fund reserves amounting to \$1,900,000 during the fiscal year, of which \$700,000 was for the operating budget shortfall at the adoption of the final budget. The subsequent \$1,200,000 was transferred to the operating budget to pay the District's unfunded accrued pension liability in the amount of \$1,153,700.
- Expenditures are greater than revenues in the state water payment fund, which will decrease reserves in the amount of \$1,330,150, which is \$857,650 more than the loss budgeted in the prior year. This difference is the result of the state payment tax calculation whereas excess reserves that have been accumulated through previously collected taxes are returned through a reduced tax rate.

Profile of the Tehachapi-Cummings County Water District

The Tehachapi-Cummings County Water District was organized on March 10, 1965, under provisions of the County Water District Law (Sections 30000 et seq. of the Water Code of the State of California). The district is located in the Tehachapi Mountains east of the Southern San Joaquin Valley and encompasses approximately 266,000 acres. The District provides an imported water supply, groundwater resource management and flood protection. The District imports State Water Project (SWP) water from the California Aqueduct and sells this imported water to

agricultural and municipal/industrial customers. Approximately one-half to two-thirds of imported water sales are for agricultural customers in a typical year.

The local groundwater supply is located in three basins, which are the Brite, Cummings and Tehachapi Basins. The District is the court appointed Watermaster for these three adjudicated basins. As Watermaster, the District protects the groundwater resources within the basins by administering the judgments and providing annual reports to the Kern County Superior Court.

The District is governed by a five-person Board of Directors elected “from divisions” to four-year staggered terms. "From divisions" means election of directors who are residents of the division from which they are elected by the voters of the entire District. The divisions are roughly equal in acreage. The Directors are responsible for policies and decisions which govern the operations of the District.

The District has operated under the council-manager form of government since its inception. Policy making and legislative authority are vested in the Board of Directors. The Board is responsible for setting policy by ordinance, resolution or minute order, adopting the budget and hiring the general manager, legal counsel and auditor. The general manager is responsible for carrying out the policies of the Board, for overseeing the day-to-day operations of the District and the hiring of all District employees. The District serves a population of approximately 37,000, which is projected to increase to 53,000 by 2040 per the Tehachapi Regional Urban Water Management Plan.

Mission

The District's mission is to ensure the most reliable, cost-effective water supply for our customers through the importation of state water project water and management of groundwater basins; and to operate and maintain certain flood control structures to protect our customers' safety and property.

Budget Process

The annual budget serves as the foundation for the District's financial planning and control. All departments of the District are required to submit budget requests to the general manager on or before April 1 each year. The current year's draft budget was prepared by the general manager, the assistant general manager, and the business manager, together with an ad-hoc budget committee. However, with the retirement of our business manager commencing in January 2024, the draft budget will be prepared by the general manager, assistant general manager, administration manager, accounting & finance specialist, and ad-hoc budget committee. The board conducts at least two public hearings on the proposed budget and adopts a preliminary budget no later than June 30 and a final budget no later than September 1. Each January, a mid-year budget review is performed by the noted District staff and ad-hoc budget committee, and any necessary revisions are approved by the board during the January board meeting. To provide transparency to its ratepayers, the District maintains its funds in separate sub-accounts in a clearly identifiable manner. Thus, the budget is prepared by sub-accounts (“funds,” e.g., general) and departments (e.g., administration). Department heads may transfer resources within a department as they see fit. Transfers between funds must be approved by resolution of the board.

Local Economy's Impact on Revenues

Since Tehachapi-Cummings County Water District receives no sales taxes, fuel taxes or other taxes that are sensitive to the business cycle, nonoperating revenues (the District's largest source of revenues) tend to be stable over time. Property taxes are the main source of nonoperating revenues.

Water Sales and Availability

The 2023 SWP Table A Allocation is 100% (19,300 AF). The District is physically limited to 10,000 AF of importation capacity. Typically, we forecast 10,000 AF SWP supply to meet our customer demand and banking requirements. As storage and conveyance opportunities arise, we will enter into cooperative agreement(s) with one or more Kern

County Water Agency Member Units to bank water that we won't be physically able to import into our District in 2023. As of June 30, 2023, we have imported 4,084 AF and banked 4,231 AF in the San Joaquin Valley.

Incorporating available supplies, the District plans to provide a surface water supply of approximately 9,000 AF in 2023 and the budget is sufficient to do so.

Water Rates

New water rates were set in May 2016, and have continued to be reviewed annually, using a methodology based on pressure zones. Rates are set for the District's three pressure zones with the higher elevation pressure zones having the higher rates commensurate with higher pumping costs. Effective May 2014, agricultural water rates were set to match Term Municipal & Industrial rates.

Natural gas from domestic shale formations has reduced and stabilized its market price for the last decade. This has worked for the benefit of the District, as its water rates are driven by the price it pays for natural gas to power its pump plants. Recent, political changes have sent the price of natural gas soaring. Going forward, the District hopes to continue to lock in long-term natural gas supplies at prices that will keep its water rates stable and at an affordable level for years to come. These recent, steep increases will inhibit our ability to do so. The District can purchase natural gas on firm contracts up to three years in advance. There is a practical limit to how much natural gas can be purchased in advance because of the unreliability of the State water supply. By banking surplus water during wet years in the Kern Water Bank, or other San Joaquin Valley water banking projects, it is hoped that the District does not get caught with future contracts of natural gas that it cannot utilize. The District is utilizing its water importation system at maximum capacity. Additional importation would require a larger pipeline and more powerful engines and pumps. Any unsold water will be banked in Tehachapi and Cummings Valleys to the benefit of the District's account and the basins as a whole.

Reserves

This budget includes the District's reserves policy, which sets forth reserve targets and a plan to accumulate those reserves over time. As of June 30, 2023, all full or interim reserve targets were satisfied, with the exception of the three flood control improvement districts. Accumulation of sufficient reserves in the flood control funds is challenging due to the extensive size of the assets, their replacement cost, and their long-expected lives. It is hoped that backstop funding from FEMA and CalEMA will be available if the District suffers catastrophic losses of flood control facilities due to a declared disaster, so that District reserves will be adequate for normal maintenance and replacement needs, emergency response to floods and any required matching funds to qualify for FEMA assistance during disasters. Management will review the need for additional reserve contributions during budget development for the fiscal year 2024-25.

State Water Project Allocation

California's Department of Water Resources' (DWR) allocation for the SWP in 2023 is 100%. The allocation averaged only 20% over the three drought years of 2013-2015 (35%, 5%, 20%). The allocation in 2016 was 60%, 85% in 2017, 35% in 2018, 75% in 2019, 20% in 2020, and 5% in 2021 and 2022. We managed to fill all orders during 2014 and 2015 by recovering banked groundwater from the Tehachapi Basin and by importing SWP carryover water and water banked in the San Joaquin Valley. We met demand through importation and extractions from the Kern Water Bank during 2018. Banked water extractions were not required in 2019. In 2020, 2021 and 2022, we supplemented the SWP allocations with SWP carryover water and banked water extractions from both the San Joaquin valley and our local basins. In 2023, the Board studied and set a minimum amount of banked reserves in our local basins due to the heavy demand and extractions during the most recent drought.

Long-term Debt

In 2015, the District completed financing with Umpqua Bank for its Pump Plant 1 Engine Replacement Project, which included replacement of controls at the other three pump plants as well. Principal of up to \$7,000,000 was

payable over ten years @ 2.51% interest beginning December 2015. The project was completed under budget at a cost of \$5,780,810. In November of 2016, the loan was re-amortized over 7.5 years @ 2.51% to maintain anticipated principal and interest payments and shorten the term. These changes resulted in interest savings for the District. This debt was extinguished in December of 2023.

In June 2023, the District completed an AA rated bond financing with US Bank for its Pump Plants 2 and 3 engine replacement project. The financing closed with \$12.06 million (\$12,062,601.15) in total proceeds at 3.65% true interest cost over a 15-year term. As of December 2023, the District made its first debt service payment of interest-only for \$264,021. The next debt service payment due in June 2024, will include both principal and interest for \$773,125. This debt is scheduled to be paid in full in June of 2038. At the December Regular Board Meeting, the Board authorized Staff to solicit bids for the engine package procurement. Those bids have been obtained and are being submitted to the Board at this January Regular Board Meeting for consideration of acceptance and award authorization.

Workforce

The District's workforce consists of 21 full-time positions and one to three temporary, part-time summer helpers.

State Payment Tax

The District levies a tax each year to pay for its obligations under the two water supply contracts with the Kern County Water Agency for State Water Project water. For fiscal year 2023-24, the tax rate is 0.053732%, an increase of 0.000234% compared to the prior fiscal year.

Any questions or concerns may be addressed to Tom Neisler, general manager at tneisler@tccwd.com, Cat Adams, administration manager at cadams@tccwd.com, or by telephone at (661) 822-5504.

Respectfully submitted,

Thomas P. Neisler
General Manager

TEHACHAPI-CUMMINGS COUNTY WATER DISTRICT ORGANIZATION CHART

INVESTMENT POLICY

Purpose: The purpose of this statement of investment policy (the “Policy”) is to set forth the investment policy of the District with respect to investments of District funds under Article 1 (commencing with section 53600) and Article 2 (commencing with section 53630) of Chapter 4 of Part 1 of Division 2 of Title 5 of Government Code. This investment policy shall be reviewed at least annually.

Objectives: The primary objective of the District in the management of District funds shall be to safeguard the principal of the funds. The secondary objective shall be to meet the liquidity needs of the District. The third objective shall be to achieve a return on the funds. (See, § 53600.5.)

Legal Investments: To the extent feasible, the district shall invest its surplus monies (cash in the treasury not required for the immediate needs of the district) in the Kern County Treasury Pool of the county or in the Local Agency Investment Fund (LAIF) of the state.

Reporting Requirements: The Treasurer shall present a quarterly investment report showing the status of all District investments as required by Section 53646 and shall be received and considered by the Board pursuant to subdivisions (a) and (b).

Authorized Signers for KCTP and LAIF Transfers: The Treasurer, General Manager and District Secretary are authorized to transfer monies between the district’s investment accounts and operating bank accounts. Transfers may be made by any one of the authorized persons.

2023-24 APPROPRIATIONS LIMIT

Section 1.5 of Article 13B of the California Constitution requires each local governmental entity to establish an appropriations limit for each fiscal year. The appropriations limit for fiscal year 2023-24 calculated pursuant to State guidelines and with data provided by the California Department of Finance is \$16,991,624.

1.	2022-23 Appropriations Limit	\$16,258,380
2.	California Per-Capita Personal Income	4.44%
3.	Population Change (Kern County)	0.07%
4.	Combined Growth Factor	4.51%
5.	2023-24 Appropriations Limit	\$16,991,624

**TEHACHAPI-CUMMINGS COUNTY WATER DISTRICT
RESERVES POLICY**

A. PURPOSE

The purpose of this policy is to establish various reserve targets, funding priorities, and accomplish prudent financial planning to ensure sufficient funding is available for current operating, capital, and debt service needs. Additionally, fiscal responsibility requires anticipating the likelihood of, and preparing for, unforeseen events. This reserves policy serves to ensure Tehachapi-Cummings County Water District's (TCCWD or District) reserves are accumulated, managed, and maintained to protect the District's creditworthiness; to provide for continuing operations including cash flow requirements, maintenance and eventual replacement of existing facilities and infrastructure, addition of new capital assets, unforeseen and unexpected emergencies; to ensure certain financial resources are used only for specified purposes; and, to facilitate stable services and fees.

The policy directives outlined in this reserve policy are intended to ensure TCCWD has sufficient funds available to meet current and future needs. The Board of Directors of TCCWD (Board) shall designate the specific fund accounts and maintain minimum fund balances consistent with the Fund definitions and funding levels outlined in the Policy. The Board will annually review the level of Funds. For purposes of compliance with this Policy, TCCWD will use Working Capital (current assets less current liabilities) as of the final day of each fiscal year to calculate the fund levels. Working Capital is a better measure than either cash or net position to determine the District's ability to meet its financial obligations and to accomplish its financial plans.

Through this Policy and the Strategic Plan document, TCCWD has set forth a number of its short-term, mid-term, and long-term goals. A fundamental purpose of the Policy and Plan is to link what must be accomplished with the necessary resources to successfully do so. Upon Board adoption of this Reserve Policy, TCCWD will take the necessary actions to comply with this Policy.

B. GENERAL PROVISIONS

TCCWD will maintain its Funds in separate, designated sub-accounts in a clearly identifiable manner that provides transparency to its ratepayers. Moneys that are legally restricted will be held in Restricted Reserves. Money that is not legally restricted will be held in unrestricted Designated Reserves and General Fund accounts.

Money will be accumulated in the reserve funds in the order presented until the interim target is achieved, at which time the next designated reserve will begin to accumulate. Once all four interim reserve targets have been achieved, money will accumulate in each fund in the order presented until the full target for each fund has been reached. Once a Designated Reserve's working capital target is funded, any surplus unrestricted funds may be reallocated.

In assessing the funding of future capital facilities and maintaining and replacing existing assets, TCCWD will analyze the benefits and tradeoffs of utilizing pay-as-you-go and/or debt financing and determine the optimal funding strategy. The analysis will consider TCCWD's current and projected working capital fund levels.

In the event the Designated Liquidity Funds balances exceed the established levels, excess money will be transferred annually into the Designated Capital Funds. Moneys from the Designated Capital Fund can be moved to pay for operating **emergencies** to supplement the Designated Liquidity Funds. In addition, in the event the Capital Fund balances exceed the established maximum, the Board will make a determination regarding the reallocation of excess money.

Interest income will be credited to the fund on which it was earned until the funds maximum balance is achieved. Once the maximum balance is reached within a specific reserve fund, the surplus interest earnings will be reallocated to other reserve funds whose funding level is below the minimum or maximum requirement recommended by this Policy.

C. TYPES OF RESERVES and FUNDS

The District maintains two types of reserves: 1) **Designated Reserves**, and 2) **Restricted Reserves**. Designated Reserves include two types of Funds: 1) **Liquidity Funds**, and 2) **Capital Funds**.

1. **Designated Reserves.** Designated Reserves are unrestricted reserve funds established by an action of the Board of Directors and set aside for a designated, specific purpose to ensure flexibility and stability. The source of their money is the general fund; therefore, the Designated purpose may be changed by the Board. **Liquidity Fund Reserves** may be changed or made available for short-term operating loans, when deemed appropriate. **Capital Fund Reserves** may be changed or made available for borrowing when deemed necessary in **emergency** situations resulting from extreme, unforeseen, or unexpected circumstances.

2. **Restricted Reserves.** Restrictions on the use of these funds are imposed by an outside source such as creditors, grantors, contributors, statutes, court orders, contracts, or bond covenants governing use. These reserves must remain in their respective funds, except for Board-approved short-term borrowing (with full interest repayment).

D. DESIGNATED RESERVES

1. **Liquidity Funds**

General Fund. The District maintains a general fund, which is the District’s water enterprise fund. Although it is an enterprise fund, its primary funding source is general property taxes. The current fiscal year budget forecasts that approximately 67% of general fund revenues will be from property taxes and approximately 33% will be operating revenues from water sales and services. Costs to perform the District’s Watermaster duties under the three judgments are also paid from the general fund.

The Government Finance Officers Association recommends that for enterprise funds “governments should start with a baseline of ninety (90) days’ worth of working capital and then adjust the target based on the particular characteristics of the enterprise fund in question (using 45 days as the minimum acceptable level)”. Because the District’s General Fund is primarily tax supported and the first installment of property tax revenue is received five months after the start of the fiscal year, the fund’s July 1 beginning working capital will be equal to or greater than 90 days of operating expenses and at no point during the year will the working capital fall to less than 45 days of operating expenses. From time-to-time, money in excess of 90 days of operating expenses may be set aside within the General Fund Reserve and earmarked by the Board as **Water Banking Reserve** to cover the cost to replace or extract the District’s banked water.

The 100% (19,300 AF) State Water Project Table A allocation in 2023 is adequate to meet the District’s customer demand and BWRA requirements with some surplus. Banked water will not need to be withdrawn from the District’s account to meet demand. In addition to our 100% Table A Allocation, the District has also purchased 925 AF of Article 21 (high flow) water and approximately 3,306 AF of Lower Kern River water. These two sources provide very low cost water that the District anticipates banking against future shortages. All of these supplies, along with 65 AF of 2022 carried over into 2023, will provide an imported water supply in excess of our customer’s requirement in 2023. We will enter into cooperative agreement(s) with one or more Kern County

Water Agency Member Units to bank water that we won't be physically able to import into our District in 2023, as storage and conveyance opportunities arise.

In addition to the General Fund Reserve, the District has established four (4) Designated Liquidity Fund Reserves and one (1) Designated Capital Fund Reserve. Full reserve targets and interim targets are established herein. All expenditures or transfers from these reserve funds will be replaced as quickly as possible in the manner of priority as described in the above General Provisions.

Tax Revenue Liability Fund. This fund was established to continue normal operations in the aftermath of property tax revenue losses resulting from taxpayer appeals. Each year Kern County publishes a tax revenue liability estimate for the District's General Fund. Since it is unlikely that all taxpayer appeals will be granted, the District will fund this reserve at 50% of the County's estimate. The interim target shall be set at 50% of the full target.

Emergency Fund. This fund was established in 1986 to mitigate the fact that the District does not carry insurance coverage for earthquake or flood damage. Its purpose is to set aside money for (1) repair, restoration or replacement of District facilities damaged as the result of natural disasters, (2) matching fund payments for cost sharing required under federal or state disaster assistance programs, and (3) District personnel overtime costs and supplies used during eligible disaster response and recovery activities, including the cost of administering those activities. It shall be the policy of this District to maintain working capital in this fund at 5% of the general fund's operating expenses. The interim target shall be set at 50% of the full target.

Major Repairs and Overhaul Fund. This fund is for the purpose of major, unanticipated repairs or replacement of the District's water importation system components. Of particular concern is the failure or replacement of one or more natural gas engines at one of the pump plants; however, the funds may be used for the unexpected replacement of other system components, as well. It shall be the policy of this District to maintain working capital in this fund at 5% of the book value of the General Fund's capital assets. The interim target shall be set at 50% of the full target.

Rate Stabilization Fund. This reserve is used to normalize fluctuations in revenues so that water rates will be more stable over time. The money is used as a buffer to reduce the frequency of changes to the District's water rates, and also to satisfy pledges and revenue calculations pursuant to long-term financing rate covenants. The amount is intended to fluctuate between 1% and 5% of the General Fund's operating expenses. The interim target shall be set at 50% of the full target.

2. Capital Funds

Equipment/Infrastructure – Replacement/Upgrade. This fund was established and designated for future capital needs to fund the cost of both new and replacement projects as a part of the District's Strategic Planning. The fund was created with the approval of the FY 2019-2020 budget. The Strategic Plan document sets out a short-term (1-2 years), mid-term (3-5 years), and long-term (6-10 years) capital improvement plan. The current fiscal year capital improvement needs shall be funded from the General Fund and included in the annual budget process. The full reserve target shall be equal to 20% of the mid-term capital improvement plan. The interim target shall be set at 50% of the full target. Any water rate revenues greater than debt service obligations and the cost of natural gas shall be designated for transfer to this fund annually. The Designated purpose of this fund may be changed or made available for borrowing when deemed necessary in **emergency** situations resulting from extreme, unforeseen, or unexpected circumstances. Any expenditure or transfer from this fund will be replaced as quickly as possible to ensure funding stability.

The District has attained its goal of 90 days working capital in the General Fund and intends to maintain this minimum funding level in perpetuity. As of June 30, 2023, all four (4) of the generally funded, Designated Liquidity Funds' reserve targets are fully funded. The generally funded, Designated Capital Fund's reserve, interim target is funded. The budget for the current fiscal year shows that costs will be controlled, and sufficient revenues will be generated such that all General Fund Designated Reserves will continue to be funded in accordance with this Policy to meet the targets and manner of priority set out in the General Provisions.

E. RESTRICTED RESERVES

The District maintains five (5) Restricted Reserve Funds:

Engine Project Fund. The purpose of this fund is for tracking all costs and reimbursements related to the 2023 Revenue Certificates of Participation (COP) that the District issued in June of 2023 for \$10,925,000 to finance certain capital improvements to the District's water system. The reserve balance will be maintained to reflect the unspent COP proceeds.

State Payment Fund. This fund is for the purpose of paying the obligations of the Kern County Water Agency contracts for State Water Project costs. The District levies a special **Ad-Valorem** tax sufficient to cover all current costs under its two water supply contracts. The reserve balance is maintained at a level sufficient to cover six months of operating expense obligation and one-half (1/2) of the Fund's **tax revenue liability** as determined by the Kern County Auditor-Controller. All unspent money in this fund will remain in the fund.

Improvement District No. 2. This fund is for the purpose of providing flood control within the discrete area known as ID2. Property within ID2 is subject to property taxes which fund this service. All unspent moneys in this fund remain in the fund for future maintenance and replacement of its flood control facilities. The District sets a reserve target for this fund at 50% of the estimated replacement cost of the facilities. The estimated replacement cost is calculated as the original construction cost adjusted for inflation.

Improvement District No. 3. This fund is for the purpose of providing flood control within the discrete area known as ID3. Property within ID3 is subject to property taxes which fund this service. All unspent moneys in this fund remain in the fund for future maintenance and replacement of its flood control facilities. The District sets a reserve target for this fund at 50% of the estimated replacement cost of the facilities. The estimated replacement cost is calculated as the original construction cost adjusted for inflation.

Benefit Assessment District No. 1. This fund is for the purpose of providing flood control within the discrete area known as AD1. Property within AD1 is subject to a special benefit assessment which funds this service. All unspent moneys in this fund remain in the fund for future maintenance and replacement of its flood control facilities. The District sets a reserve target for this fund at 50% of the estimated replacement cost of the facilities. The estimated replacement cost is calculated as the original construction cost adjusted for inflation.

Reserve targets for the three (3) flood control districts are not fully funded and are not anticipated to be so for quite some time. Ideally, these reserves should be adequate to repair or replace structures damaged in a flood event. Flood control assets tend to stay in place for long periods of time and function without damage under normal conditions. However, they can be damaged or destroyed by natural disaster events requiring rebuilding. Some funds may become available from federal or state agencies in a declared disaster event, but it is possible that facilities could be damaged in a localized flood event that is not part of a declared disaster.

In the event of a declared disaster, it is likely that FEMA and CalEMA would provide funding assistance to the District to rebuild the flood control facilities. Under this scenario, the District's reserves would be used for matching funds (typically 10-20% of total cost) to secure the disaster assistance funds.

F. MANAGEMENT OF RESERVE FUNDS

Fund balances will be reviewed, at a minimum, on an annual basis to ensure compliance with this Policy. The General Manager will be responsible for managing the accumulation of reserves in the various funds in accordance with Board policy. Only the Board shall approve any reallocation of funds or any transfers between Funds. The Board will work collaboratively with the General Manager to ensure the accuracy of the annual report and evaluate the goals and purposes of each reserve fund and adopt policy changes as may be necessary or desirable.

The minimum established for each Fund represents the baseline financial condition that is acceptable to TCCWD from risk and long-term financial planning perspectives. Maintaining Reserve Funds at appropriate levels is a prudent, ongoing business process that consists of an iterative, dynamic assessment and application of various revenue generating alternatives. These alternatives (either alone or in combination with each other) include, but are not limited to: Fees and charges, energy usage, capital financing, investment of funds, and levels of capital expenditures.

Reserves	Reserve Formula	2022-23 Budget				Reserve Target Met?
		Full Reserve Target	Interim Reserve Target	Actual Reserve 6/30/2022	Audited Actual Reserve 6/30/2023	
DESIGNATED RESERVES						
70 General

Fund / Department	Final Budget	Change	Amended Budget	Purpose of Expenditure
General / Administration				
50455-01	\$ 175,000		\$ 175,000	CalOES Generator Project (carryover)
50456-05	40,000		40,000	Automate Compound Gate (carryover)
50456-07	20,000		20,000	Office Ladder Cage for Roof Access
50466-01	100,000		100,000	SCE Charge Ready EV Charging Infrastructure Program
50481-00	600,000		600,000	Cummings Valley Extraction Well
Subtotal	<u>\$ 935,000</u>	<u>\$ -</u>	<u>\$ 935,000</u>	
General / Pipeline				
50431-01	\$ 20,000		\$ 20,000	Lake Road Repairs
50449-01	20,000		20,000	Engineering for Fairview Loop Line Replacement
50449-03	70,000		70,000	Pressure Sustaining CLA-Vals for High Use CV Turnouts (carryover)
50451-02	90,000		90,000	Service Body Truck w/Rack to Replace PL16
50455-05	13,000		13,000	Line Locator, Transmitter and Training
50485-03	170,000		170,000	Dennison Well Pump Repair (carryover)
50485-04	50,000		50,000	Nunes Water Well Electrical Improvements
Subtotal	<u>\$ 433,000</u>	<u>\$ -</u>	<u>\$ 433,000</u>	
General / Pumping				
50412-06	\$ 20,000		\$ 20,000	PP Road Base
50412-07	30,000		30,000	Clean/Inspect Heat Exchangers (8)
50413-04	20,000		20,000	AMR/SCADA - 1st phase (carryover)
50415-03	150,000		150,000	PP1 Engines 2/4 Top End Rebuilds
50416-01	50,000	60,000	110,000	Pump Repairs
50416-04	50,000	60,000	110,000	Right Angle Gear Box Repairs
50416-05	20,000		20,000	PP4 E1/E3 Repiping "dead legs" (carryover)
50416-07	35,000		35,000	PP4 Pump Couplings
50448-01	101,820		101,820	STS Maintenance
50451-01	125,000		125,000	Service Body Truck w/Crane
50451-02	60,000		60,000	Replace Pump Plant Supervisor Truck
50455-02	10,000		10,000	PP2 Generator and Transfer Switch Replacement (carryover)
50455-04	60,000		60,000	PP3 Generator and Transfer Switch Replacement
50455-05	20,000		20,000	PP3 Sand Media Filtration Skid
50455-06	20,000		20,000	Laser Alignment Tool and Training
50456-03	10,000		10,000	Cogen Exterior Improvements
50456-04	32,000		32,000	Replace PP Building Roof Louvers
50456-05	25,000		25,000	PP4 Drainage Improvements
Subtotal	<u>\$ 838,820</u>	<u>\$ 120,000</u>	<u>\$ 958,820</u>	
General Fund 70 Total	<u>\$ 2,206,820</u>	<u>\$ 120,000</u>	<u>\$ 2,326,820</u>
